

ACTIVITY
NATIONAL INTEGRATION DAY

“A day to promote unity in diversity & feeling of oneness amongst people”

National integration day is also known as the **National unity day**. The main aim behind celebrating the day is to encourage people to bring about **unity, peace, love, and brotherhood** among them. It nourishes communal harmony and fights casteism, regionalism and linguistic differences.

So let us join hands and learn something more about it. We will have quizzes and much more fun in this month's activity. Children need to sit with a poster on integration with a slogan written on it & dress up in different attire to represent different states or religions.

So, let's come together and integrate different cultures of our country.
