# CREATIVE WRITING

Write a paragraph on “**Trees**”. Using the given clues.

important      lifeless      oxygen      clean      homes      rain      furniture      pollution      care      help

Trees are very important for life. Without trees the earth will become lifeless . There would be no water or forest. Trees give us oxygen, shade, fruits, medicines etc. They purifies and keep the air clean . They make the place look beautiful. Trees provide shelter to many birds and animals. Birds make their homes on trees. Trees cause rain and prevent flood. They provide wood to make furniture . To control air pollution we all must care for trees. We must plant a new one in our house. Planting a new tree will help others.

## **LEARNING OUTCOME :**

The students brainstorm for correct answers and revise the chapters.
