

# **WELCOME TO THE ONLINE CLASS**

**SESSION NO.: 1**

**CLASS: 4**

**SUBJECT: SCIENCE**

**CHAPTER NUMBER: 8**

**CHAPTER NAME: ANIMALS: HOW LIFE GOES ON**

**SUB TOPIC: INTRODUCTION, SOME ANIMALS GIVE  
BIRTH TO YOUNG ONES**

---

**CHANGING YOUR TOMORROW**

---

# LEARNING OBJECTIVE

To enable the learner to:

- understand why animals need to reproduce
- know the different ways by which different animals reproduce

# ANIMALS AND THEIR BABIES

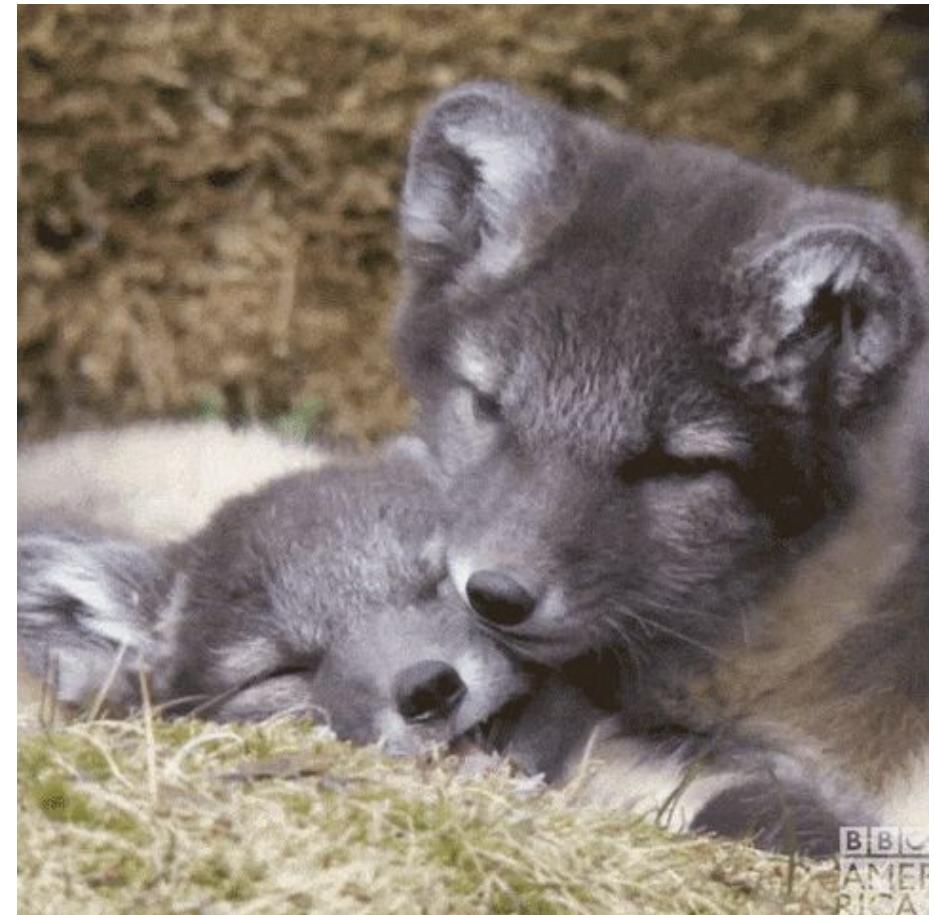

**Living beings produce more of their own kind , so that life on the earth goes on.**

# REPRODUCTION

- The process of producing young ones of the same kind is known as reproduction.
- Living things die after completing their lifespan.
- Lifespan: The period of time for which a living thing lives or is expected to live.

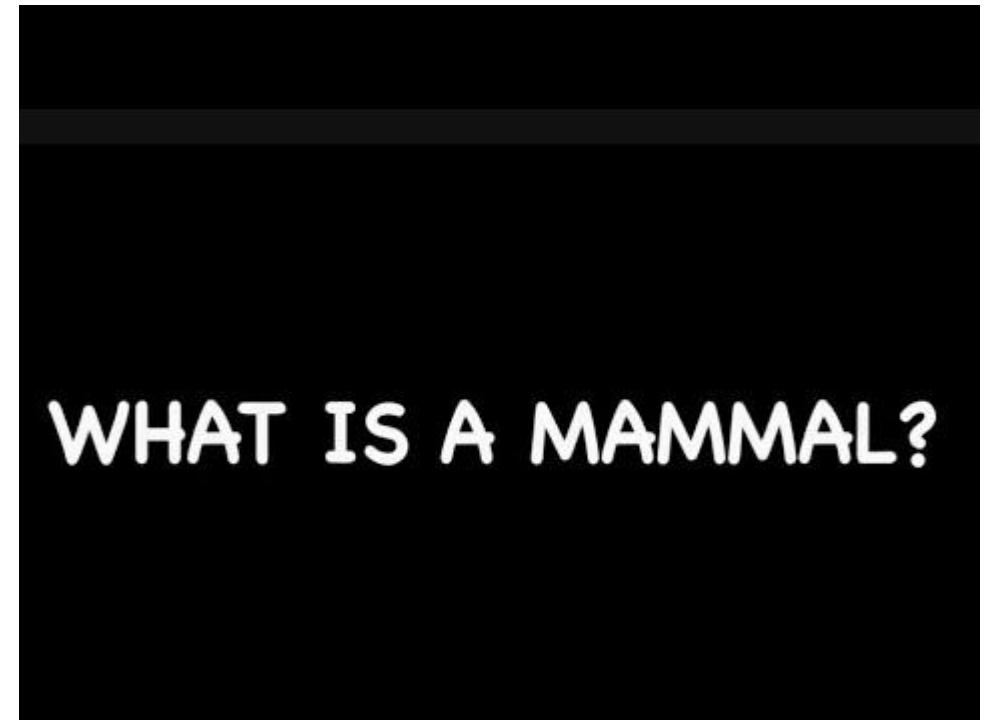

# ANIMALS REPRODUCE IN TWO DIFFERENT WAYS

- **By laying eggs**
- **Giving birth to their young ones**
- **Frogs, hens and snakes lay eggs out of which babies hatches.**
- **Humans, cats and cows give birth to their young ones.**

# MAMMALS

- Animals which give birth to young ones and feed them on their milk are called mammals.
- They are the most developed among all animals as their bodies are covered with hair.

- Some examples of mammals are cats, horses, elephants, goats, rabbits and rats.
- Whales and dolphins are mammals too even though they look like fish and have hairless bodies .
- Bats and humans are also mammals.

# CARE OF THE YOUNG ONES

- Mammals take care of their babies for a long period of time. Usually the mother cares for the young.
- She feeds the babies, cleans them and keeps them warm.
- She protects them from enemies.
- As they grow, the mother teaches them to find food and live on their own.

# **SUMMARY**

- Animals reproduce in two different ways, by laying eggs and giving birth to young ones.
- Animals which gives birth to young ones and give them their milk are called mammals.
- Some examples of mammals are cats, elephants, horses , bats, whales and humans etc.
- Mammals body is covered with hair and they are warm blooded .

READY FOR A  
**QUIZ?**

**Q1. The period of time for which a living thing lives.**

**Ans: Lifespan**

**Q2. Humans, cats and cows give \_\_\_\_\_ to their young ones.**

**Ans: birth**

**Q3. The process of producing young ones.**

**Ans: Reproduction**

# HOMEWORK

- Write the difficult words in your notebook.

# LEARNING OUTCOME

**The learner will be able to:**

- understand why animals need to reproduce**
- know the different ways by which different animals reproduce**

**THANKING YOU  
ODM EDUCATIONAL GROUP**
