

H.W

1. What are the different properties of Eraser tool?

Ans → Eraser tool helps us to erase unwanted lines and fills of an object from the Stage. When you click on the Eraser tool, it displays three modifiers: Eraser Mode, Faucet, and Eraser Shape modifiers.

2. What is the difference between paint bucket tool and ink bucket tool?

Ans → Paint Bucket Tool

① It is used to fill the enclosed areas of an object with colours, in a single click. This tool is also used to fill the areas that are not completely closed.

Ink Bucket Tool

① It is used to change the stroke colour, width, and style of lines or shape outlines.

3. What is frame?

Ans → Frames in Animate can be defined as the little

rectangular cells, which appear on the Timeline. Frames are used to control and organise the content of your movie.

4. What is keyframe?

Ans → Keyframes are the special types of frames where you can define change in the object for an animation like position, ~~colour~~ colour, shape, etc.
