

- 1 Plant get water and mineral from the soil
- 2 Animals raised by us for our ^{use} are known as livestock
- 3 The mineral obtained from the earth are in an impure form
- 4 Metals are shiny and hard
- 5 Sunlight is a renewable natural resources

1 Forest provides us with

All of these

2 Which of the following sources of energy will always be available to us

Solar energy

3 Water is a

Renewable resource

4 A Natural substances found in the earth

Forest

5 our natural resources from which we get several materials such as metal mineral

6 energy is obtained from sun.
solar

7 Which one among the following is not an example of a mineral
wind

Qc 1 Minerals are tiny substances that are present in the rocks they are also non renewable resources.

2 Renewable

Non Renewable

Renewable resource

Non Renewable resource

are those which are are those once used up are

either never over or exhausted and are not

renewed by nature renewed or renewed very

ex sun

slowly over million of years ex Mineral
