

Exercise-5(c)

5. What should be subtracted from 7,50,001 to get 3,47,589?

Ans. The number should subtracted to get = 7,50,001

The number we want = 3,47,589

The number should be subtracted to get 3,47,589 = 4,02,412

$$\begin{array}{r} 499911 \\ 7,50,001 \\ - 3,47,589 \\ \hline 4,02,412 \end{array}$$

$\therefore$ 4,02,412 should be subtracted to get 3,47,589.

from 4,87,548 to get 2,88,067

Ans- The number should subtracted
to get = 4,87,548

Number we want to get = 2,88,067

$$\begin{array}{r} 31717414 \\ 4,87,548 \\ - 2,88,067 \\ \hline 1,99,481 \end{array}$$

$\therefore$ 1,99,481 should be subtracted
from 4,87,548 to get 2,88,067.
