Homework

Q Landline telephones are not used as much as today as they were 20 years ago. Why? Write 4 or 5 lines.

A 20 years ago, Landline telephones were used by people to communicate on a ~~per~~ personal level. But slowly, smartphones were invented. These telephones had more advantages than Landline telephones, for ex - Touchscreen, we video calls as well as many apps to make life easier. These discoveries made a real impact people's life. So humankind switched to smartphones from landline telephones.
