

DIFFERENCE BETWEEN TWO DISEASES

COMMUNICABLE

Communicable diseases can be passed on from one place to another.

Ex - Bacteria, ~~and~~
protozoa ~~and~~
Viruses.

Some more - Ex: chickenpox
ringworm, measles, ~~mumps~~
mumps and ringworm.

NON-COMMUNICABLE

Non-communicable diseases are not passed on from one ~~place~~ person to another.

Ex. Beriberi, night ~~blindness~~
blindness, scurvy, rickets
~~and~~ anaemia, Goitre.
